

Smart Phones and/or Watches at School

They are not to be seen  or heard  once school begins.

If they are seen or heard, meaning the student is using it or it rings, the teacher will give the student an opportunity to correct the situation (turn it off & put it away) once, but if that device reappears, it will be confiscated and turned into the office to be given to the principal.

The principal will not be returning the personal device to the student. The device will have to be picked up by a parent or guardian.

This procedure is clearly explained to students at the start of every school year, and it is reviewed as necessary. It is also reviewed with parents during Back to School Night.

Teléfonos o Relojes Inteligentes en la Escuela

No deben ser vistos  ni escuchados  una vez que comience la escuela.

Si se ven o se escuchan, lo que significa que el estudiante lo está usando o suena, el maestro dará al estudiante la oportunidad de corregir la situación la primera vez (apagándolo y guardándolo), pero si vuelve a aparecer, el dispositivo será confiscado y se llevará a la oficina para ser entregado a la directora.

La directora no devolverá el dispositivo personal al estudiante. El dispositivo deberá ser recogido por un padre o tutor.

Este procedimiento se explica claramente a los estudiantes al comienzo de cada año escolar y se menciona durante la Noche de Regreso a la Escuela a los padres de familia.
